BROOKS ANNOUNCES LIGHT FABRICATIONS IS AUGUST BUSINESS OF THE MONTH

Monroe County Executive Maggie Brooks today announced that Light Fabrications Inc. has been selected as Monroe County's "Business of the Month" for August and will be featured on Monroe County's website, monroecounty.gov. Brooks launched the online "Business of the Month" feature last year, in an effort to recognize and promote local companies that are retaining and creating jobs, and investing in the community.

County Executive Maggie Brooks recently visited Light Fabrications for a tour and visited with its President, Jim Cucinelli.

*"Light Fabrications is yet another 'bright spot' of our local economy. It might surprise some people to know that their products touch our everyday lives, from the photo paper we use to print pictures to the nameplate on our cars," said **Brooks**. "I thank Light Fabrications for its commitment to doing business and retaining jobs in Monroe County."*

Light Fabrications Inc. was founded in 1977 and is a converter, fabricator and distributor of Pressure Sensitive Adhesives (PSAs) and non-PSA materials. The company employs over 200 people in Monroe County and has undergone several expansions at its location in the Town of Gates.

Light Fabrications provides a variety of services, including die cutting, laminating, slitting and assembling, and stocks materials used for bonding, attaching, sealing, masking, protecting, shielding, conducting and more. Light Fabrications serves customers in the automotive, electronics, business equipment and medical industries.

For more information on Light Fabrications, visit the company's website at lightfab.com.
